

## HYDRONIC L-II

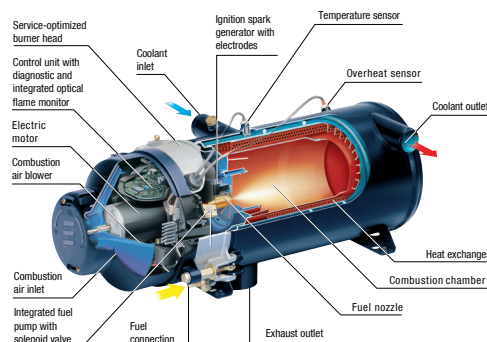

## HYDRONIC L-II

Eberspaecher's Hydronic L-II coolant heater is the partner you need to keep you warm and productive on the job site. The Hydronic L-II series are for the largest coaches, boats, and off-road engines and are easily OEM installed or retrofitted. These heaters provide engine, fuel, and hydraulic preheat and can be incorporated into the vehicle's heating system to provide supplemental heat. They're the first choice for rapid heating in "arctic-like" conditions. They are highly efficient and you can start seeing your return on investment within months of owning your Eberspaecher heater.

### BENEFITS OF AN EBERSPÄECHER HYDRONIC L-II:

- Supplies engine, fuel, and hydraulic preheat and can be used to provide supplemental air heating
- Reduced fuel and energy consumption
- 12V and 24V models available
- High efficiency with the option of four power levels
- Constant function monitoring
- Safety and diagnostic system
- Low operating costs, low maintenance, and easy to service
- EPA verified and CARB compliant

COOLANT HEATERS	HYDRONIC 16	HYDRONIC 24	HYDRONIC 30	HYDRONIC 35
Heat Output (kW/BTU)	16 / 54630	24 / 87950	30 / 102430	35 / 120000
Fuel Consumption (l/hr / US gal/hr)	2.0 / 0.53	2.9 / 0.77	3.7 / 0.98	4.2 / 1.11
Electrical Consumption (amps) *24V only without coolant pump 12V converter available	2.50	3.33	4.38	5.00
Weight (kg/lbs)	18.14 / 40	18.14 / 40	18.14 / 40	18.14 / 40
Water Throughput	5200 l/hr against 0.2 bar 1374 US gal/hr against 3 psi
